

“Sanctioned Interpretations” – SI and “Frequently Asked Questions” – FAQ

VDA Standard	VDA Volume 2: Quality Assurance for Supplies. Production Process and Product Approval (PPA)
Edition/Year	6th, revised edition, April 2020
Date of Publication	15th OCT 2020

The further applicable documents relating to these requirements will be defined in the following guidelines: “Sanctioned Interpretations” (SI) and “Frequently Asked Questions” (FAQ), which are released by VDA QMC together with the Project Group VDA 2 as and when required:

- A “Sanctioned Interpretation” (SI) changes the interpretation of a rule or a requirement, which as such becomes the basis for a deviation.
- A “Frequently Asked Question” (FAQ) is an explanation of an existing rule or requirement.

They are binding from the date of publication.

“Sanctioned Interpretations” – SI and “Frequently Asked Questions” – FAQ

Sanctioned Interpretations (SI)

related to “Chapter 5, Table 1, p. 20”

VDA-No 5.4 Evidence of suitability of the measurement processes for the product and production process
and “Appendix 1 – Notes on PPA deliverables (Table 1), p. 42”:

VDA-No 5.4 Evidence of suitability of the measurement processes for the product and production process
Capabilities of the measurement processes for the characteristics according to customer drawings or
characteristics in the production process (see also GUM, VDA Volume 5 or comparable)

Frequently Asked Questions (FAQ)
